Wisconsin DNA Databank Familial Search Request

A familial search is a deliberate search for potential biologically-related individuals of a contributor to an evidentiary DNA profile. The search is conducted with specialized (non-CODIS) software and may provide significant investigative information in unsolved cases in which all other investigative leads have been exhausted.

Print or Type all Case Information			
Agency Case Number	Laboratory Case Number	Request Date	
Item Description	Laboratory Item Number	Offense Date	
Criminal Offense	Investigating Agency	County	
Victim(s)	Sex/Race	Date of Birth	

☐ The above case is an unsolved violent crime or attempted violent crime.

☐ All other investigative leads have been exhausted and/or crime poses critical public safety concerns.

☐ Profile was previously entered into CODIS.

Additional Comments: (Please note any previously linked cases.)

DNA Analysis Previously Performed by Laboratory Analyst(s):

Full Name and Title of Case Officer	Phone Number	E-mail Address

I attest that the investigative agency and prosecutor's office are committed to further investigate the case if the search is conducted and the name(s) of potentially related individual(s) are provided. I hereby request that the Wisconsin DNA Databank conduct a review of this case for Familial DNA Searching.

Signature of Head of Investigating Law Enforcement Agency	Date
