

Agency-Specific Responses to Law Enforcement Employee Recording Devices Survey

Police agencies in Wisconsin were asked questions about their usage of recording devices in an optional portion of the 2020 Law Enforcement Employee Annual Survey that was sent out to Wisconsin Uniform Crime Reporting (UCR) registered agencies in November 2020. 436 agencies responded to the Annual Survey, and 434 of those agencies chose to respond with information about their use of dashboard and body-worn cameras. A select portion of their responses – pertaining to their possession of recording devices and the challenges they have associated with obtaining them – are included in this document.

- [Table 1](#): Agencies that use *both* body cameras and dashboard cameras
- [Table 2](#): Agencies that use *only* body cameras
- [Table 3](#): Agencies that use *only* dashboard cameras
- [Table 4](#): Agencies that use *neither* body cameras nor dashboard cameras

Reponses

Does your agency currently use (or is in the process of implementing) recording devices for officers in the form of body cameras and/or dashboard cameras? Are there enough body cameras for every officer to have a dedicated camera? If not, what has prevented your agency from fully implementing body cameras (i.e. dedicated body cameras for every officer)? Please mark all that apply.

Wisconsin Dells PD	Cost of recording/preserving footage	\$2-2.99M

Is your agency interested in the implementation of dashboard and/or body cameras? Additionally, what has prevented your agency from implementing dashboard and body cameras (i.e. dedicated body cameras for every officer and full usage of dashboard cameras)? Please mark all that apply.

Table 4: My agency does not use body cameras or dashboard cameras for on-duty officers

Agency	Interested?	Challenges to implementation	Reported Budget
Ashland Co SO	No	Device cost, Cost of recording/preserving footage	\$5-5.99M
Blue Mounds PD	No	Device cost	\$100-199k
Chilton PD	Yes	Device cost, Cost of recording/preserving footage	\$800-899k
