[Alicia's Law](#), legislation authored by Senator Van Wanggaard and Representative Joel Kleefisch and passed by the Wisconsin State Legislature last session, assisted investigators in expediting the administrative subpoena process for this case. Alicia's Law created an administrative subpoena process that expedites the procedure for finding the location of suspected internet sex predators and provides additional funding to the Internet Crimes Against Children (ICAC) program. The law's namesake is Alicia Kozakiewicz - the survivor of a brutal abduction by an Internet predator and was held hostage and tortured in the predator's Virginia basement at the age of 13 - an advocate for Internet and child safety awareness.
