I would like to know ahead of time if there are records released related to these requests. I need to know what is out there if I am questioned by media and citizens when I am traveling the state.

Thank you
Brad

We represent a group of individuals affected by the environmental pollution emitted by Mid America Steel Drum plants. I am writing to request copies of records regarding the Mid America Steel Drum Company, Inc.'s plants located on 8570 South Chicago Rd. in Oak Creek, Wisconsin and on 3950 South Pennsylvania Ave in Saint Francis, Wisconsin. Specifically, I am requesting all records from 1997 to present relating to the plant's compliance and lack of compliance of State of Wisconsin Environmental Laws. These records should include, but are not limited to: Any records of complaints from individuals regarding the plants; Any investigations relating to noxious fumes or soil and/or water contamination in the neighborhoods bordering these plants; Maps or charts regarding environmental pollution emitted from the plants; Photographs, films, recordings and tapes relating to any investigations of environmental pollution emitted from the plants; Opinions and orders made in investigating these plants; All communication (including electronic communication) with the owners and/or management of these plants regarding complaints or investigations; and All communication (including electronic communication) with any employees of these plants regarding complaints and investigations.

I am requesting an opportunity to obtain copies of public records relating to State of Wisconsin vs. Steven Avery, Case 05 CF 381. I am specifically requesting John Ertl's case report. I am aware the DOJ has previously denied requests to release this report, but it appears to have been since released to journalists.
