No problem on not being there. I would have liked to be part of the SAKI strategy meeting. If I had been involved in planning earlier, I think we could have avoided a lot of this trouble. I would have been able to ask questions of the whole group. Instead, I was provided with different info from different people.

I know everyone wants to spare my time, but I am capable of coordinating a public safety effort. I have done it quite a few times over the years, and can probably quarterback an initiative better than most of the people on our team.

Ok, I will make that change and then I am going to send to the event organizer so it will be set when you arrive.

Sorry I can't join you there.

Looks great, except I would take out the slide with historical drug take back numbers. There will be too much for me to explain. Perhaps just use the slide I have typically used listing our take back totals for 2015 and 16.

I have to meet with Paul, Jill, and Audrey at 8:30 a.m. to strategize on SAKI. I will not be coming to your presentation for Dr. Westlake's group, About Health.

This is what he asked you to touch on:

- high level issue of the opioid crisis
- measures DOJ is taking to address this epidemic
- measures the National Association of AGs is taking
- work of the task force
- experiences as AG
- why the AG's made this his main priority
- how important it is for the health systems to help fix this, or the government will be forced to

I edited one of your existing PowerPoints and can make additional changes or change graphics. Let me know what you would like changed. I attached it as a PDF so it will send via email.
