August 15, 2019

To Whom This May Concern:

In response to public records requests received by the Wisconsin Department of Justice (DOJ), a copy of DOJ's Division of Criminal Investigation (DCI) investigative case file for DCI's investigation into the March 2, 2019 shooting by Augusta Police Officer Levi Stumo, which resulted in the death of Tyler Meier, has been prepared for release. The Eau Claire County District Attorney determined there is no basis to prosecute the law enforcement officer involved, and DCI is releasing its case file pursuant to Wis. Stat. § 175.47(5)(b).

The DCI case in question is **19-1434: Augusta OID – Tyler Meier**. That investigative case file has been reviewed in preparation for public release, and a copy of the case file reports has been made available online on the Wisconsin Department of Justice's website at www.doj.state.wi.us/dci/officer-involved-critical-incident. Access to copies of related photographs, audio recordings, and video recordings may be obtained by contacting the DOJ Communications Office at dojcommunications@doj.state.wi.us.

Certain information has been redacted from the records, either because specifically required by law or pursuant to the Wis. Stat. § 19.35(1)(a) balancing test. These redactions are described below. In addition, I have been mindful in preparing these records for release that the purpose of the Wisconsin public records law is to shed light on the workings of government and the official acts of public officers and employees. *Building and Constr. Trades Council v. Waunakee Comm. Sch. Dist.*, 221 Wis. 2d 575, 582, 585 N.W.2d 726 (Ct. App. 1998).

Well-established public policy recognizes the privacy rights of a deceased person's surviving loved ones. *Cf. National Archives and Records Admin. v. Favish*, 541 U.S. 157, 168, 171-72 (2004). In preparing these records for release, I applied the Wis. Stat. § 19.35(1)(a) public records balancing test and determined that the public interest in treating surviving loved ones of the deceased with respect for their privacy and dignity outweighed any public interest in disclosure of the following records:

- Graphic images in photographs and video of Tyler Meier at the crime scene and during his subsequent autopsy.

In performing the balancing test, I determined that the public interest in protecting the privacy of this family, and in facilitating cooperation with law enforcement in sensitive

investigations, also outweighs any public interest in disclosure of the described records. *Cf. Linzmeyer v. Forcey*, 2002 WI 84, ¶ 38, 254 Wis. 2d 306, 646 N.W.2d 811.

I also determined by application of the public records balancing test that the public interest in protecting the ability of law enforcement to gather information when conducting sensitive investigations and in protecting the privacy of citizens involved in those investigations outweighs any public interest in disclosure of information that could identify witnesses and other individuals referenced by witnesses. *Cf. Wis. Stat. § 19.31; Linzmeyer*, 254 Wis. 2d 306, ¶¶ 30, 32, 39, 41. Due to the sensitive and sometimes controversial nature of officer-involved shooting incidents, public disclosure of the full names and other identifying information for individuals interviewed or mentioned during interviews could expose these individuals to unwanted public scrutiny, criticism, or pressure from outside sources, which could have a chilling effect on future witnesses' willingness to come forward and cooperate with law enforcement in investigations of similar incidents. Accordingly, the following information has been redacted from the records prepared for release:

- Names of adult witnesses, family members, a 911 caller, and others mentioned by individuals interviewed or on paperwork found in the vehicle. Initials for the names of these individuals were not redacted. The last name of family members was left unredacted if it was the same as the deceased individual's last name. The names of law enforcement officers and other public employees mentioned in the records have not been redacted.
- Other information that would identify the above individuals including dates of birth, home addresses, home and personal cellular telephone numbers, an insurance policy account number, signatures, the voice of a 911 caller in an audio recording from dispatch audio, and information regarding work hours and places of employment.
- License plate numbers and vehicle identification numbers (VIN) of witnesses, those interviewed, and vehicles located in the Eau Claire Police Department Westgate Cold Storage Facility.

In performing the balancing test, I determined that the public interest in avoiding unnecessary intrusion into the personal lives of persons collaterally mentioned in a law enforcement report outweighs any public interest in information about the conduct of governmental affairs. Furthermore, I determined that the public interest in protecting the privacy of these individuals, and in facilitating cooperation with law enforcement in sensitive investigations, also outweighs any public interest in disclosure of this described information. *Cf. Linzmeyer*, 254 Wis. 2d 306, ¶ 38.

In addition to the overall redactions set forth thus far, certain other specific types of redactions have been made from the records prior to public release for the reasons explained below.

Birthdates of individual persons have been redacted to protect against identity theft or other unauthorized use following any subsequent disclosure. In performing the public records balancing test pursuant to Wis. Stat. § 19.35(1)(a), I concluded that the public interest in favor of protecting the confidentiality of this economically valuable individually identifiable

information and preventing its misuse upon any subsequent disclosure outweighs any public interest in disclosure of the dates of birth.

Home addresses, home telephone numbers, and personal cellular telephone numbers have been redacted pursuant to the Wis. Stat. § 19.35(1)(a) balancing test. In performing the balancing test, I determined that the public interest in disclosure of this information is outweighed by the public interest in the expectation of privacy on the part of individuals in their personal lives and in protecting the sources of law enforcement information and in encouraging citizens to cooperate with law enforcement investigators without undue concern that their private lives will become public matters. *Cf.* Wis. Stat. § 19.31; *Linzmeier*, 254 Wis. 2d 306, ¶¶ 30, 32, 39, 41. Additionally, well-established public policy recognizing the confidentiality and privacy of the personal contact information of an employer's employees is expressed in Wis. Stat. § 19.36(10)(a). I find that the same underlying public policy of protecting the confidentiality and privacy of personal contact information outweighs any public interest in disclosure of this information.

Driver's license numbers of individual persons have been redacted to protect against identity theft or other unauthorized use following any subsequent disclosure. In performing the public records balancing test pursuant to Wis. Stat. § 19.35(1)(a), I concluded that the public policy in favor of protecting the confidentiality of this economically valuable individually identifiable information and preventing its misuse upon any subsequent disclosure, as well as the public policies outlined in Wis. Stat. §§ 801.19, 801.20, and 801.21, outweigh any public interest in disclosure of the driver's license numbers of individual persons.

State ID card numbers and information regarding state ID cards has been redacted pursuant to Wis. Stat. § 343.50(8).

Credit card numbers and an insurance policy account number have been redacted pursuant to Wis. Stat. § 19.36(13). To the extent this information is not directly governed by Wis. Stat. § 19.36(13), these records have been redacted pursuant to the Wis. Stat. § 19.35(1)(a) balancing test. Well-established public policy recognizing the confidentiality and privacy of financial identifying information and the protection of economically valuable information from misappropriation or misuse is expressed in Wis. Stat. § 19.36(13). I find that the same public interest in protecting financial identifying information from misappropriation or other misuse, protecting the confidentiality and privacy of financial information, and protecting the expectation of privacy on the part of individuals in their personal lives applies here. In applying the balancing test, I concluded that the public interest in protecting this information, as well as the public policies outlined in Wis. Stat. §§ 801.19, 801.20, and 801.21, outweigh any public interest in disclosure.

Direct telephone numbers assigned to specific law enforcement officers have been redacted pursuant to the Wis. Stat. § 19.35(1)(a) balancing test because these numbers are not made public and must remain confidential. In applying the public records balancing test to these telephone numbers, I concluded that the strong public interest in effective investigation and prosecution of criminal activity outweighs any public interest in disclosure of these direct telephone numbers of law enforcement officers. Allowing the direct telephone numbers of law enforcement officers to become publicly known would have an adverse effect on the officers' future ability to investigate criminal activity because the phones are used for

undercover calls and other investigative business where it is essential to prevent a caller from recognizing the number as belonging to law enforcement in order to protect the safety of law enforcement personnel, informants, and others involved in an investigation. *Cf. Linzmeyer*, 254 Wis. 2d 306, ¶¶ 30, 32, 39. General use, publicly available telephone numbers for the law enforcement agencies involved have not been redacted from the records.

The exact address for the office of DCI agents who work at a confidential location shared by undercover agents has been redacted pursuant to the Wis. Stat. § 19.35(1)(a) balancing test to protect the safety of these agents and the ability of these agents to effectively investigate crime in undercover capacities. I determined that the public interest in protecting the confidentiality of this location so that undercover agents can effectively investigate criminal activity outweighs any public interest in disclosure of this confidential address. Wis. Stat. § 19.35(1); *Linzmeyer*, 254 Wis. 2d 306, ¶ 41.

Crime Laboratory records have been redacted pursuant to Wis. Stat. § 165.79(1). In accordance with Wis. Stat. § 165.79(1), information present within DCI case reports that discloses what analyses were performed by the Crime Laboratory and the results of those analyses also has been redacted from the records prior to release.

Emergency medical personnel working with Fairchild Fire Department, Gold Cross Ambulance, and the flight crew of Mayo One responded to the shooting scene to provide medical care for Mr. Meier. Specific information regarding their assessment and treatment of Mr. Meier, as observed or reported by the EMS personnel or other witnesses, has been redacted from the records in accordance with Wis. Stat. §§ 256.15(12) and 146.82(5)(c). To the extent the information is not directly governed by Wis. Stat. §§ 256.15(12) and 146.82(5)(c), in applying the Wis. Stat. § 19.35(1)(a) balancing test, I find that the same underlying public policy of protecting the confidentiality and privacy of personal medical information, as well as the analogous restrictions on release of patient treatment information described under Wis. Stat. § 256.15(12), outweigh any public interest in disclosure of this information.

In addition, specific information regarding the lifesaving attempts for Mr. Meier by law enforcement, as reported by those providing the treatment or other witnesses, has been redacted from the records pursuant to the Wis. Stat. § 19.35(1)(a) balancing test. Well-established public policy recognizing the confidentiality and privacy of personal medical information is expressed in Wis. Stat. § 146.82. I find that the same underlying public policy of protecting the confidentiality and privacy of personal health information, as well as the analogous restrictions on release of patient treatment information described under Wis. Stat. § 256.15(12), outweigh any public interest in disclosure of the redacted information.

Copies of Fairchild Fire Protection confidential EMS reports contained within the DCI case file have been redacted pursuant to Wis. Stat. §§ 256.15(12) and 146.82(5)(c) except for the information authorized for release by Wis. Stat. § 256.15(12)(b). In view of the strong public policy protecting the confidentiality of personal medical information expressed in Wis. Stat. 146.82(5)(c), and in accordance with Wis. Stat. § 256.15(12), excerpts from these reports have also been redacted where present within related DCI case reports. In applying the Wis. Stat. § 19.35(1)(a) balancing test, I find that the same underlying public policy of protecting the confidentiality and privacy of personal medical information, as well as the analogous

restrictions on release of patient treatment information described under Wis. Stat. § 256.15(12), outweigh any public interest in disclosure of this information.

DCI report numbers 19-1434/18 and 19-1434/25 document DOJ's receipt of the autopsy and toxicology records for Tyler Meier, provided by the Eau Claire County Medical Examiner's Office. The DCI reports have been included with the released records; however, the attached records, provided by the medical examiner's office, have been wholly redacted from the release. Those records were provided to DOJ by the Eau Claire County Medical Examiner's Office on the condition that the records would not be shared with any person outside the criminal investigation, and the medical examiner's office would not provide the records to DOJ without DOJ's agreement to those conditions. In performing the public records balancing test pursuant to Wis. Stat. § 19.35(1)(a), I determined there is a public interest in honoring the conditions under which the medical examiner's records were provided to DOJ and in cooperating with the medical examiner's office so as to encourage the current and future joint law enforcement efforts of our agencies. To not honor the conditions by disclosing the records would preclude future record-sharing and significantly impair cooperative law enforcement efforts between DOJ and the Eau Claire County Medical Examiner's Office. I concluded that the public interest in effective investigation of crime and effective law enforcement, which is furthered by honoring the conditions under which the Eau Claire County Medical Examiner's Office provided the records to DOJ, outweighs any public interest in disclosure by DOJ of the records. *Cf. Linzmeyer*, 254 Wis. 2d 306, ¶¶ 30, 32, 39. Information regarding toxicology is included within DCI report number 19-1434/18 because the Eau Claire County Medical Examiner authorized its release. If desired, the medical examiner's records may be requested directly from the Eau Claire County Medical Examiner's Office records custodian.

Only one copy of records for which duplicate copies exist has been included with the records prepared for release. *Stone v. Bd. of Regents*, 2007 WI App 223, ¶ 20, 305 Wis. 2d 679, 741 N.W.2d 774.

The law permits DOJ to impose fees for certain "actual, necessary and direct" costs associated with responding to public records requests. Wis. Stat. § 19.35(3). Pursuant to Wis. Stat. § 19.35(3)(f), DOJ may require prepayment for the costs of locating (if applicable), copying, and mailing the requested records if the total amount exceeds \$5.00. Pursuant to Wis. Stat. § 19.35(3)(e), in this instance, DOJ is waiving its fees, and therefore, the records are being made available online at this time without any payment required.

Pursuant to Wis. Stat. § 19.35(4)(b), this determination is subject to review by mandamus under Wis. Stat. § 19.37(1) or upon application to a district attorney or the Attorney General.

Sincerely,

Paul M. Ferguson
Assistant Attorney General
Office of Open Government
